[Find the signal in the noise](#)

GPS signals are very weak, coming in at about 120 dBm which is below the thermal noise floor of ~100 dBm.
[Software Defined GPS](#)

[ARRL really needs to reach out more effectively](#)

I don't believe that they're doing enough to attract new members and retain existing members, and a few recent incidents have only solidified my opinion.
[KB6NU](#)

[Supporting disaster communications from space](#)

We owe it to these volunteers to do everything we can to support their work to help communities bounce back when disaster strikes.

[FEMA.gov](#)

[CW call sign weight analyzer](#)

A useful tool when trying to figure out how long it will take to send a call sign using CW.
